MRS. FLAGLER'S ESTATE.

How It Was Disposed of by the New

York Supreme Court Referee. NEW YORK, Aug. 2.-Evidence, hundreds of pages of it, has been taken by J. E. Hedges, referee, who has prepared his report for the Supreme Court as to kinship of relatives of Ida A. Flagier, formerly wife of Henry M. Flagler, of the Standard Oil Company. The estate of Mrs. Flagler, which has been in charge of committees since she was declared to be incompetent, amounted to \$2,273,000 on Aug. 4, 1899, and has increased. The net income runs from \$116,000 to \$117,000 a year. An important point in the proceeding was whether Mr. interest in the estate of his wife if she should die first. Mr. Flagler laid no claim to such an interest, but the question had not been judicially determined The referee will report that Mr. Flagler had no interest A mass of evidence was sifted as to how

the three foundlings who are nephews of Mrs. Flagler came to learn of their relation-Shourds. Her sister, Mary Emma Taylor, died on Feb. 28, 1864, and Mary's husband, Edward W. Taylor, gave the custody of their three sons, William, Richard and George, to the New York Foundling Asyum. Ten years later they were apprenticed boy whose family did not take him was to farmers in Iowa. In 1901, William, who terested in his family tree, and the discovery of his relationship to Mrs. Flagler fol-Richard, one of the three foundlings, is a painter, while the third is an engineer on the Northern Pacific Railway. The relatives, as judicially determined of Mrs. Flagler and the proportion each will get of her estate if she dies, are: Charles F. Shourds, brother, one-quarter; Stephen E. Shourds, brother, one-quarter Mrs. Mattie Atkinson, sister, one-quarter, and the other quarter will go among the three Taylors. The referee advises that \$4,000 a year of the income be paid now to the three Taylors, so that each will get a third of it. The two brothers and sister of the incompetent have previously obtained orders for \$4,000 a year each from the surplus income of Mrs. Flagler. All charges against the income of Mrs. Flager, including allowances made for her support, leave a surplus income of about \$60,000 a year.

WASHINGTON, Aug. 2.-Commissioner General Sargent, of the Immigration Bureau, with the approval of Secretary Shaw, has issued a circular prohibiting the coming to the United States of residents of Porto Rico and the Philippines, except after same examination as is enforced against other alien immigrants. The circular, which is addressed "to collectors of customs, immigrant inspectors, Chinese inspectors, and other officials charged with the administration of the immigration and

"Under the provisions of the acts of Congress approved on April 12, 1900, and July 1, 1902, the people of the Island of Porto Rico and of the Philippine islands have been declared to be citizens of those islands, respectively, and as such entitled to the protection of the United States. You are, therefore, advised that the provisions of those which prescribe payment of the head tax, apply to the residents and natives of Porto Rico and the Philippine islands, and, moreover, that the provisions of the laws relating to the exclusion of Chinese apply to all of such persons as are of the Chinese race. The citizens and residents of the said islands, therefore, should be admitted to the United States upon the same conditions and subject to the same examinations as are enforced against people from countries over which the United States claims no right of sovereignty whatever."

Sewing Machine Statistics.

WASHINGTON, Aug. 2.-The Census Bureau to-day issued a report on the manufactures of sewing machines, showing that the lands, buildings, machinery, tools and implements involved in the industry aggregate \$20,072,800, and that the products of the sixty-five establishments reporting for the United States are valued at \$21,129,561. During the past forty years the capital invested has increased thirteen fold, number of wage wages six fold, cost of materials used over thirteen fold and the value of products nearly five fold. Only twenty-six of the establishments in operation show a value of products exceeding \$100,000. During the past decade the capital invested in the industry increased almost 15 per cent. The total number of sewing machines for factory use produced in the United States during the census year was 55,227, valued at \$2,395,017. Out of the sixty-five establishments engaged in the sewing machine in-81 per cent., are located in cities having a population of 20,000 or over.

Seaboard Air-Line Is Spending Millions of Dollars for Itself.

BALTIMORE, Md., Aug. 2.-John Skelton Williams, president of the Seaboard Airline Railroad, made a flying visit to Baltimore this morning, returning in the afternoon to New York. While here he spent most of his time in conference with Vice President J. William Middorf. Being asked by a reporter what part the Seaboard is taking in the pending railway combinations reported in the South, President Williams said: "The Seaboard is now and will continue absolutely independent. We have never entertained a proposition to enter any combination, although we have been approached from one of the numerous schemes of this sort. Our attention is absorbed in developing the opportunities of the Seaboard system.

President Williams said he had just awarded contracts for 20,000 tons of steel rails, this in addition to the 10,000 tons which are now being delivered. He also said that bids are being asked for about \$10,000,000 of equipments for the line to Birmingham. Engines, coal cars, box cars and other rolling stock are included in this lot.

Mirrors for Hospital Patients. American Medicine.

A lay contemporary says that in some hospitals the use of mirrors by the patients is forbidden, and it urges that instead of this their use should be encouraged as health improves. The rule against them, it is said, was enacted because it was supposed that the observation by patients of their own sunken cheeks, paleness, etc., would cause depression of spirits, and thus prevent the cheerfulness that aids convalescence. We had never suspected the existence of a silly anti-mirror law, and if it still exists in any hospital we trust the on the charge of stealing a hatchet, tried management will hasten to rescind it There is far more than the satisfaction of vanity in the use of mirrors, and they certainly contribute to cheerfulness instead of
